ABOUT ME

I am a Bachelor of Science in Computer Science (BSCS) graduate with a passion for programming, web development, and user-centered design. With expertise in JavaScript, Webflow development, and UI/UX design, I specialize in creating responsive, high-performance websites that combine functionality with aesthetics. My experience includes Webflow CMS integration, custom animations, and SEO optimization, as well as a strong foundation in programming fundamentals, OOP, data structures, and database management. Currently working as a Webflow developer, I focus on delivering scalable and impactful digital solutions while continuously enhancing my technical and creative skills to stay ahead of industry trends.

EDUCATION AND TRAINING

BS Computer Science

Univeristy of Okara [01/04/2019 – 15/10/2023]

City: Okara | Country: Pakistan | Website: <https://uo.edu.pk/>

Intermediate

City: Okara | Country: Pakistan

Matriculation

Scholars Public High School Okara [05/04/2015 – 25/02/2017]

City: Okara | Country: Pakistan

WORK EXPERIENCE

Web developer

Invextech [01/01/2024 – 25/09/2024]

City: Okara | Country: Pakistan

- Developed expertise in designing applications using React.js, Next.js, and Vue.js frameworks during professional projects.
- Acquired proficient use of GitHub for collaborative code management and version control in workplace settings.
- Gained hands-on experience with Redux and Redux Toolkit for effective state management, applied directly in job-related projects.

Webflow Developer

[01/10/2024 – Current]

City: Lahore | Country: Pakistan

- As a professional web developer specializing in Webflow, I design and develop responsive websites and landing pages with a focus on seamless user experiences. My expertise extends to integrating content

management systems (CMS) and creating custom solutions that align with client needs. I ensure websites are visually appealing, functional, and responsive across all devices.

Coursework

Operating Systems, Artificial Intelligence, Object Oriented Programming, Software Engineering, Web Development

PROJECTS

Halloweend

Created **HauntHaven**, a Halloween-themed website featuring immersive animations and interactive elements to celebrate the holiday. The site combines eerie visuals with engaging, spooky animations and interactive features that enhance the festive atmosphere. Designed to captivate visitors, it offers a fun and memorable experience with themed content, games, and special effects that bring the Halloween spirit to life.
